## Tire Pressure Sensor Tool

Tire pressure monitoring systems (TPMS) have produced a need for sensor re-positioning tools. Every time that a vehicle's tires are rotated or a sensor is replaced, the sensors must be retrained, telling the vehicle where each wheel is located. With patented technology, the KTI-P.S.T. is capable of reprogramming all the tire pressure transmitters, eliminating the need to purchase multiple tools to address different O.E. formats.

**85-8100**

The NAPA 85-8100 Professional Wheel Charger with Digital Test and Charge Module offers advanced features and capabilities not found in traditional battery chargers, improving the safety, accuracy, and efficiency of battery and electrical system service.

The 85-8100 combines the features of a professional wheel charger with a digitally controlled battery charge acceptance test, starter draw voltage capture test and an alternator charge voltage test.

### Features

- Battery charge acceptance test mode helps eliminate charging bad or worn out batteries saving time by only charging good batteries
- Starter draw voltage capture test for added electrical system test capabilities
- Alternator voltage test for quick and simple testing of vehicle's charging system
- Digital display provides easy to read output of volts and amps
- Charge time display gives additional information about battery being charged
- For charging 12 volt batteries
- Two hour timer with hold position
- Rugged handle
- Heavy-duty cable set is grounded, oil resistant and built to last
- High efficiency all copper transformer windings
- Professional automatic reset overload and short circuit protection
- Temperature controlled fan cooling system
- Heavy-duty silicon rectifiers with high performance aluminum heat sink

NAPA AIR COMPRESSORS

## Performance Series, Medium-Duty, 8 HP Gas Air Compressor

Features medium-duty, two-stage, 175 PSI compressor designed for field service requirements when electricity is not available, aluminum head and crankcase for fast heat dissipation, cast iron cylinders, finned intercooler and aftercooler provide low operating temperatures and high efficiency. The 8 HP OHV Honda engine is equipped with an electric start, fuel tank and gas-saving throttle control that meets CARB low emission requirements. Includes splash-type lubrication, and pressure is pre-set at 145 psi (on) and 175 psi (off). 13.5 SCFM at 175 psi. 30-gallon ASME code tank, manual drain.

**NAPA TIRE HARDWARE  
Replacement Car  
And Truck Sensors**

Today there are over 13,000,000 registered vehicles on the road equipped with Remote Tire Pressure Monitoring Systems (RTPMS). We have replacement sensors and replacement components to meet over 70% of the vehicles equipped with RTPMS. Sensors that malfunction due to electronic failure or road damage can easily be replaced with our sensors, which come with a grommet, nut, core and cap. When replacement of the sensor is not required, our service kit has components which address O.E.M. specifications that state that each time a tire is removed or replaced on a wheel rim, to replace the grommet, nut, core and valve cap with new components to prevent galvanic corrosion and air loss.

**Power Mat™**

The Power Mat is a magnetic, convertible and interchangeable way to store and organize sockets. Customize any tool box and use storage space in the most unlikely areas. Versatile enough to be used in drawers to organize sockets, or simply flip the mat over to the rubber side and store a variety of other tools in a vertical position. The flexible design makes the Power Mat your most versatile tool. Includes 84 high-powered magnets imbedded in a flexible, high-impact poly-pro body. May be used with Power Pegs (sold separately) in any combination of three drive sizes (1/4", 3/8", or 1/2") to customize your workspace.

# Great Earn-Backs On ESG Products

## Here's How The ESG Earn-Back Works:

- ▶ Purchase any Midtronics tester from participating NAPA Stores during the first quarter of 2006 – January, February and March.
- ▶ Beginning the first month following your tester purchase, you'll earn 10% of your 2006 purchase increase, over 2005, on qualifying NAPA ESG product lines through June 30, 2006. Earn back up to the entire cost of the tester.
- ▶ Eligible NAPA ESG product lines include:
  - NAPA Batteries
  - NAPA NEW Alternators & Starters
  - NAPA Power Alternators & Starters
  - NAPA Power Supreme Alternators, Starters, Wiper & Window Lift Motors, and Door Actuator Motors

For more details, contact your NAPA ESG or Tools & Equipment Representative, your local NAPA AUTO PARTS Store, or call 1-800-LET-NAPA today!
